

## List of initiatives

---

- Carry out a community-wide awareness campaign for anti-idling (Turn off your motor! program)
- Redirection of rainwater on sections of road (away from the sewer network)
- Encourage carpooling: Install a sign defining a zone for carpoolers at the arena parking lot
- Installation of two ecocentres underway
- Installation of technology to reduce vehicle idling
- Installation of a timer (shuts off at midnight) for decorative lighting
- Implementation of an active transport plan
- Production of a good practices driving guide, distributed to employees, to reduce fuel consumption
- Project to build a residual waste treatment centre (Granby)
- Writing of an internal policy for employees concerning good energy and consumable management practices
- Replacement of lighting at the arena and the town hall for more energy efficient lights
