

## List of initiatives

---

- Updates to the air conditioning systems
- Insulation repairs in the municipal garage
- Re-direction of rainwater out of the sewer network for sections of the highway
- Repairs to the municipal pool (repairs to the cement to minimize water leaks)
- Progressive replacement of vehicles at the end of their life cycle with more energy efficient vehicles
- Promotion of the ecocentre in the MRC de l'Assomption (in Assomption)
- Establishment of a public bus system in the MRC de l'Assomption
- Replacement of the garage door at the municipal garage (with a more thermal resistant one)
- Establishment of a responsible practices handbook for efficient management of energy and consumables
- Replacement of public lighting with LED streetlights
- Updates to air blowers at the water treatment plant in Repentigny (increased yields)
- Production of a best driving practices handbook and eco-driving training for employees
- Establishment of a vehicle inspection program
- Dissemination of information about the benefits of grass-cycling (awareness campaign)
- Introduction of an anti-idling incentive campaign: "Coupez le moteur" program
- Infrastructure development promoting active transportation
- Increased frequency of bus transportation (every hour instead of every two hours)
- Extension of the commuter train to the east (Mascouche, Repentigny, Charlemagne, etc.)
- Installation of a carpooling zone in the parking lot of the new eastern train
- Addition of an extra lane on Rue des 40 Arpents
